Three selectable cycles:
Normal - 100 seconds
Heavy - 168 seconds
Extra-Heavy - 268 seconds

Powerful 1 hp wash pump motor

Air insulated between body and stainless steel housing

Durable stainless steel construction

## Notes:

A vent hood is not recommended above the Jackson DishStar HT-E as it does not produce excessive vapors. Always check with the local building code to know what type of ventilation is required for commercial dish machine installations in your area.

Normal operation of the DishStar HT-E generates steam that may escape from the door. Materials such as wood laminate, veneers, etc. are unsuitable for use in areas exposed to dishwasher steam and detergents.
Stainless steel or other moisture-resistant shields are recommended for surfaces adjacent to DishStar HT-E sides and top.
